

Ming Lee Ng

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs, Los Angeles, CA

November 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Federation Field Guide (Fullstack Web App) – Users can search for any of their favorite aliens from the Star Trek franchise. This is a full-stack web application using a built from scratch API and client-side web app.

Clean Cuts El Paso (Client Website) – A fully functional static website built for a local customer. This website features multiple pages, meticulously crafted content, and a layout designed from the ground - up.

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at Ming Lee's Software Solutions | El Paso, TX

June 2019 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also consulted on social media marketing strategies and assisted with SEO.

Operations Manager at United States Army | El Paso, Texas

Jul 2009 — Jun 2019

Served as the Transportation Manager for the control, coordination, and supervision of all movement operations for 250+ personnel. Managed the licensing, maintenance records, and dispatching of over 130 pieces of equipment valued at \$30M.
